Summary

Bridgility was founded in 2010 as Biz Guard Concepts, LLC and rebranded as Bridgility in 2015. We are organized into three distinct business units - delivering excellence in Software and Infrastructure Solution Services; providing Enterprise Agility Training; and for marketing our Project Portfolio Management (PPM) product ePro. Bridgility has established itself as a self-certified Total Small Business and an Information Technology (IT) strategy and solutions company, focused on servicing the needs of Commercial, Non-Profit, and Government sectors. Bridgility has a strong reputation for delivering creative solutions, on-time and on-budget, harnessing our resources with Fortune 500 experience and the agility of a small business for delivering personalized service. Our professionals have demonstrated experience and proven successes delivering best-in-class Software solutions and managing Infrastructure Operations. We leverage our skills and capabilities to enable our customers to align technology with business strategy, deliver sustainable product solutions, optimize performance, minimize costs, and provide unparalleled customer service.

What We Offer

As a self-certified Total Small Business and a Minority Owned Small Disadvantaged Business Enterprise, Bridgility is committed to excellence and creating innovative and flexible solutions for our clients implementing business process automation, seamless integration, and targeted customization to deliver business value. Bridgility provides experienced Information Technology professions supporting the full Systems Development Life Cycle and Infrastructure Operations Life Cycle.
